KSU STEM Definition

After some confusion about the university's STEM programs, the Offices of Academic Affairs, Institutional Research, and Strategic Communications and Marketing have set the definition of STEM courses and programs at KSU as those whose CIP codes are listed on the National Science Foundation (NSF) STEM Classification of Instructional Programs Crosswalk and/or on the Immigration and Customs Enforcement (ICE) STEM-Designated Degree Program list.

NSF STEM Classification of Instructional Programs Crosswalk: https://www.lsamp.org/help/help_stem_cip_2010.cfm

ICE STEM-Designated Degree Program List: <https://www.ice.gov/doclib/sevis/pdf/stem-list-2011.pdf>

Though KSU is guided by the NSF and ICE in determining STEM programs, KSU has many programs that advance economic development in Georgia and the nation. As such, some courses not identified by the KSU STEM definition may be eligible for adjusted GPA calculation in accordance with Georgia House Bill 801 (<http://www.legis.ga.gov/Legislation/en-US/display/20152016/HB/801>).
