Approved Undergraduate Policies and Curriculum Committee Recommendations

These approvals are reflected in the Spring 2010 online undergraduate catalog update.

Board of Regents

The Board of Regents approved KSU's request to rename the existing Specialist in Education and Doctor of Education with majors in Leadership for Learning to Teacher Leadership for Learning (see BOR memo dated October 5, 2009).

College of Art

- BFA in Art
 - Current concentration areas divided to focus on single media.
 - Requirement to complete four upper-level studios and ART 3000 before continuing in a concentration area is dropped. The courses are now covered via a "distribution requirement."
 - Art history requirements are reduced from three survey courses to two. Art history courses removed from Area F and consolidated in one area.
 - Entrance and concentration portfolios formally listed as a degree requirement.
 - Admission and retention policies have been tightened. Art majors must maintain an overall GPA of 2.25, and a GPA of 3.0 in the concentration area. One grade of "F" in the concentration area will result in dismissal from the concentration. A student whose GPA falls below 2.25 has only one chance to improve and return. Students must now "maintain reasonable and timely progress towards the degree."
- BS in Art Education (P-12)
 - Area F changed to mirror that of the BFA degree in order to comply with requirements specified by the NASAD structural guidelines.
 - The change from ART 3000 to ART 2990 reflects the repositioning of acceptance to concentration in the BFA and BS degrees.
 - The Art History requirements reflect minor title and number changes.
- Minor in Art History
 - Requirements for the minor revised to bring the program in line with university guidelines.

Bagwell College of Education

- BS in English Education
 - EDRD 4409 replaces EDRD 4410, which has been discontinued.
 - Seven American Studies courses added as options under the Cultural Studies requirement.
- BS in Early Childhood Education
 - Program of study modified to reflect TOSS field experience becoming a separate course.

College of Science and Mathematics

- BS in Chemistry
 - Track in Pharmaceutical Chemistry added.

University College

- University-wide degree requirement: KSU 1101 or Learning Communities
 - Change in name of requirement to “First-Year Seminar or Learning Communities Requirement.”
 - Change in language of requirement description to emphasize completion of the course as pertinent to fulfilling the requirement.

Change in Certificate Program of Study

- Information Security and Assurance (ISA) Certificate
 - Replacing ISA 4330 with ISA 3210.
 - Re-specifying electives in order to offer courses that allow sufficient variety, availability and topicality to meet students’ needs.
- Applied Statistics and Data Analysis Certificate
 - All courses now offered online.
